**DATE:** December 20, 2013

**MUNICIPAL ASSISTANCE CORPORATION FOR THE CITY OF TROY**

**ANNUAL PUBLIC AUTHORITY**

**BUDGET AND FINANCIAL PLAN**

**2014 – 2017**

**A) Relationship with unit of government on whose behalf the Authority was established.**

The Municipal Assistance Corporation for the City of Troy is a corporate governmental agency and instrumentality of the State of New York, constituting a public benefit corporation. The Corporation was created by State legislation on June 19, 1995, under Titles I, II, IV of Article 10 of The Public Authorities Law of the State (Act). Titles may be amended from time to time for purposes of providing financing assistance and fiscal oversight of The City of Troy, New York (City).

The Act provides that the Corporation shall continue for a term of one year after all its liabilities have been paid and fully discharged.

The act authorized the Corporation to provide financing assistance by issuing bonds and notes for specified purposes in an aggregate principal amount up to \$71 million. The Act further authorizes the Corporation to issue up to \$2 million of notes to fund City operating expenses. The principal amount of bonds and notes issued to pay costs of issuance, to fund reserve funds, and to refund outstanding bonds do not count against the Act's dollar limits. Through December 31, 2013, the Corporation issued approximately \$68 million of bonds and notes that count toward the \$71 million limit.

**B) Description of budget process.**

The Corporation's budget is approved by the Board of Directors for each fiscal year. Management controls are in place to ensure that authorizations to expend monies are consistent with the approved budget. The Corporation monitors its expenses periodically and reviews actual expenses versus projections for the period. The Corporation's quarterly certification process requires a review of anticipated expenses and revenue requirements. The review ensures that the Corporation will meet both operating and debt service expenses for the year.

**C) Description of the principal budget assumptions, including sources of revenues, staffing and future collective bargaining costs, and programmatic goals.**

The Corporation will incur Operating Fund expenses and Debt Service Fund expenses and will meet those expenses through Certifications to the State. It funds its debt service requirements and operating fund expenses primarily from the City's share of certain sales taxes imposed by Rensselaer County (the "County") and from State aid payments designated for the City. During

the fiscal year ending December 31, 2014, the Corporation will certify for sales tax in an amount of approximately \$5.85 million. Other sources of revenue will consist of investment income.

The New York State Financial Control Board personnel along with an accounting consultant provide all administrative services including procurement and the preparation of the financial statements on behalf of the Municipal Assistance Corporation for the City of Troy. The Financial Control Board staff that is responsible for administrative services to the Corporation consists of management confidential employees.

The Corporation is required to reimburse the City of New York for services provided to the Municipal Assistance Corporation for the City of Troy.

An Annual budget for the fiscal year(s) 2013 – 2014 was approved by the Board of Director's on March 21, 2013.

D) Provide a self-assessment of budgetary risks.

Sales tax certification and investment income are the primary source of revenues to the Corporation.

The Corporation periodically certifies to the State the amount of sales tax it requires, and the State Comptroller disburses to the Corporation the amounts it has certified. Collections of sales taxes in excess of the Corporation's needs are paid to the City.

Operating expenses are expected to remain consistent with prior-year expenses and debt service will be paid in accordance with the schedule provided. Debt service expenses and operating expenses will be met through certifications to the state and earnings on investments.

E) Revised forecast of current year's budget.

See accompanying Budget and Financial Plan for Fiscal Years 2013 – 2017 as Attachment #1.

F) Reconciliation that identifies all change estimates from the projections in previously approved budget plan.

See accompanying statement (Attachment #1).

G) Statement of last completed fiscal year's actual financial performance in categories consistent with the proposed budget or financial plan.

See accompanying statement (Attachment #1).

H) Projection of the number of employees, including sources of funding, the number of full-time and full-time equivalents and functional classifications.

N/A

- I) Statement of each revenue enhancement and cost reduction initiative that represents a component of any gap-closing program and the annual impact on revenues and staffing.

NONE

- J) Statement of sources and amount of any material non-recurring resource that is planned for use in any given fiscal year.

NONE

- K) Statement of any transactions that shift material resources from one year to another and the amount of any reserves.

NONE

- L) Statement of borrowed debt projected to be outstanding at the end of each fiscal year covered by the budget or financial plan use for purpose of debt issuance; scheduled debt service payments for both issued and proposed debt; the principal amount of proposed debt and assumed interest rate(s); debt service for each issuance as a percentage of total pledged revenues; listed by type or category of pledged revenues; cumulative debt service as a percentage of available revenues; and amount of debt that can be issued until legal limits are met.

See accompanying Attachment #2.

- M) Statement of annual projected capital cost broken down by category and sources of funding, and for each capital project, estimates of annual commitment, total project cost, expected date of completion and the annual cost for operating and maintaining those capital projects that, when placed into service are expected to have a material impact on the operating budget.

**NOTES**

- (1) Includes certification amounts to pay operating expenses and debt service costs. Beginning in 2012, the timing for receipt of certification was deferred from December to January to reduce the number of days before the funds are applied to pay debt service.
- (2) Arbitrage rebate liability accrues and is paid every five years from the debt service reserve fund.
- (3) Certification residuals are retained to pay debt service in subsequent years. For 2012, a certification for December was deferred to January 2013.
